## WEB DEVELOPER

Driven computer science and engineering student with a passion for web development. Proficient in programming languages like (JavaScript, Python and it's library) and eager to leverage my skills to build innovative and user-friendly web applications.

---

## KEY COMPETENCIES

Angular	CSS
JavaScript	React.js
HTML	Node.js

---

## PROFESSIONAL EXPERIENCE

### Adis Technology

Jan-2025 - Present

#### Angular Developer Intern

At my Angular internship, I'm working on building dynamic web applications using Angular 19. I develop reusable components, use modern features like standalone components and signals, and integrate with JSON Server for mock APIs. I'm also involved in improving performance and gaining hands-on experience with Angular best practices and advanced concepts.

### Lets Grow More

Apr-2024 - May-2024

#### Front-end Web Dev Intern

During my web development internship, I focus on creating responsive and user-friendly websites using HTML, CSS, and JavaScript. I work on designing layouts, implementing interactive features, and optimizing web pages for performance. This experience is helping me strengthen my frontend development skills and understand real-world web design and development workflows.

### CodSoft

Apr-2024 - May-2024

#### Front-end Web Dev Intern

Prepared and served a variety of beverages with precision and creativity, consistently meeting or exceeding quality standards. As a web development intern, I'm involved in building and styling web pages using HTML, CSS, and JavaScript. I assist in creating interactive UI elements, ensuring responsive design across devices, and maintaining clean, accessible code. This internship is enhancing my practical understanding of frontend development and real-world web application workflows, and receiving compliments for latte art and presentation.
